How do I filter, search, or adjust date ranges in Analytics?

Last Modified on 06/20/2025 11:49 am EDT

This article explains how to search for specific content, use filters, and adjust date ranges in Big Think+ Analytics.

Big Think+ Analytics is designed to help you quickly find the data you need. Whether you're tracking a specific lesson, expert, or organization-wide engagement over time, the built-in tools make it easy to search, filter, and focus your view.

How do I filter or search for specific content?

Each data tab in Analytics (Curations, Lessons, Learning Paths & Classes, Courses, and Learners) includes a **Filter** at the top of the data table. For example, here's the one for the Curations tab:

Dashboard	Curations	Lessons	Learning Paths a	& Classes	Courses	Learners
Curation Ar	alytics					
Filter by Cura	tion Name					
Curation Nar	ne ¢	C	reator 🗘		Duration 🗘	

Enter a keyword, title, or name to instantly filter results. Some examples of items you can use to filter these tabs are:

- Lesson or Class title
- Course or Curation title
- Expert name
- Learner/User name

Each tab's filter will only apply to that tab's table.

How do I adjust the date range for Analytics data?

At the top right of the Analytics interface, you'll see a **Date Range**, which defaults to the most recent month. This controls the time frame the data reflects **across all tabs**.

Dashboa	d Curations	Lessons	Learning Path	s & Classes	Courses	Learners		
Freethin	k							🛱 Apr 18, 2025 – May 18, 2025
TIME SPE	IT LEARNING			TOTAL CONTEN	IT VIEWS		LESSONS COMPLETED	LEARNERS

To change the date range:

1. Click on the existing dates to view a calendar of options.

	🛅 May 8, 2025 – May 11, 2025													
<	March - April 2025													\rightarrow
Su	Mo	Tu	We	Th	Fr	Sa	5	Su	Mo	Tu	We	Th	Fr	Sa
23	24	25	26	27	28	1	З	0	31	1	2	3	4	5
2	3	4	5	6	7	8		6	7	8	9	10	11	12
9	10	11	12	13	14	15	1	.3	14	15	16	17	18	19
16	17	18	19	20	21	22	2	20	21	22	23	24	25	26
23	24	25	26	27	28	29	2	27	28	29	30	1	2	3
30	31	1	2	3	4	5								

- 2. Select a range by clicking on a start date and an end date.
- 3. The Analytics page will reload, and all data will update to reflect your selection.

Note: The selected date range remains consistent as you move between tabs.
