How can I save lessons to watch later?

Last Modified on 08/05/2025 12:38 pm EDT

This article explains how to use the Curations feature to save content in Big Think+ so you can return to it later.

If you find a Lesson, Course, Learning Path, or Expert Class you want to come back to later, you can save it by adding it to your **Watch Later** Curation. (A **Curation** is a custom collection of Big Think+ content. Think of it like a personal playlist, except instead of music, you're gathering lessons, courses, and classes that support your growth.) This personal list is automatically created for you and is a simple way to keep track of content you're interested in.

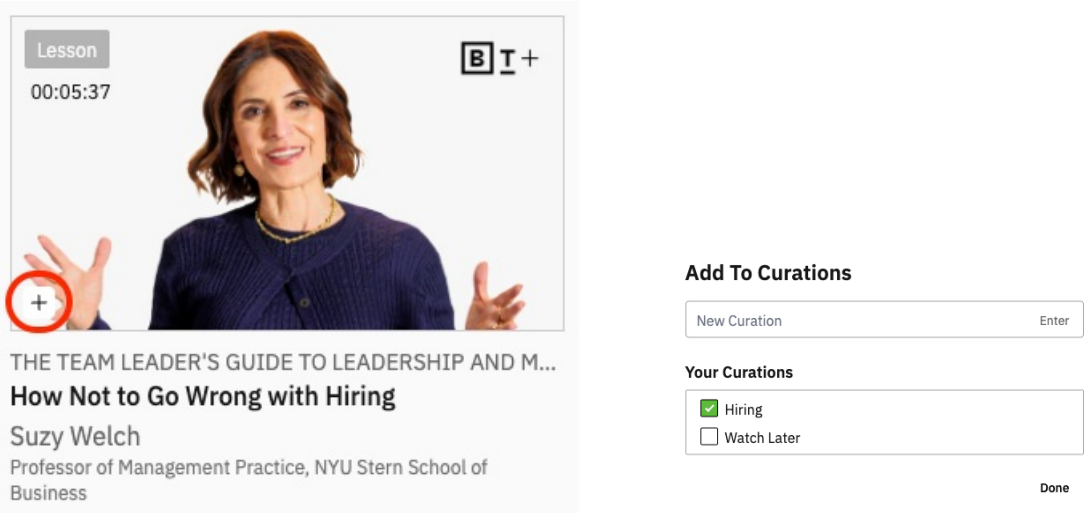
What can I do with Curations?

- Save content to watch later
- Group content by theme (e.g., "Giving Feedback," "Leveling Up My Leadership," "Onboarding Support")
- Keep track of learning that fits your role, challenges, or upcoming conversations
- Follow curated collections from your team or Learning Manager

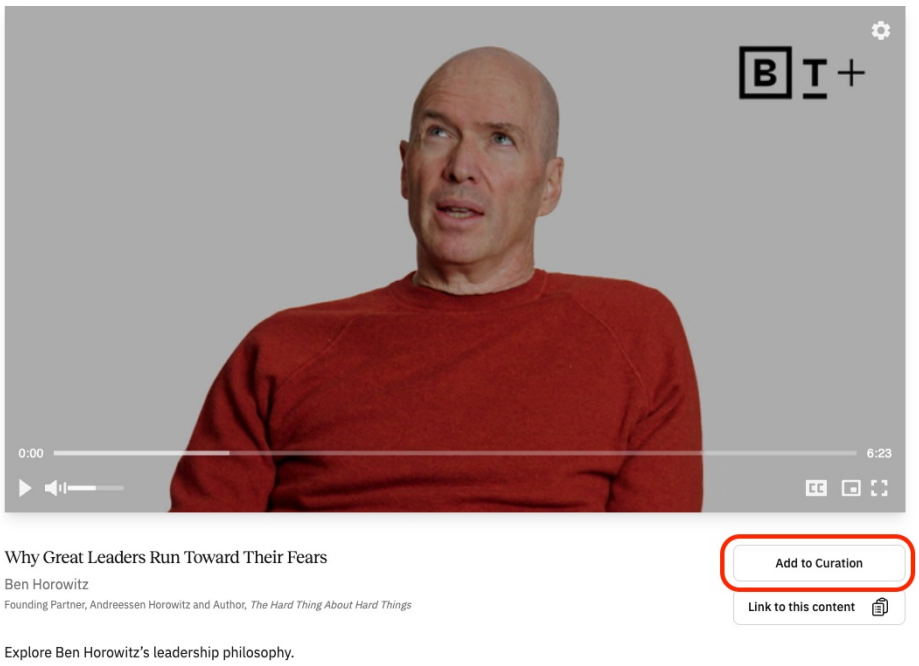
How do I add content to my Watch Later Curation?

There are two simple ways:

1. **From a content tile** (anywhere on the site):
   Click the ≣ icon, then select a Curation to add it to or create a new one.



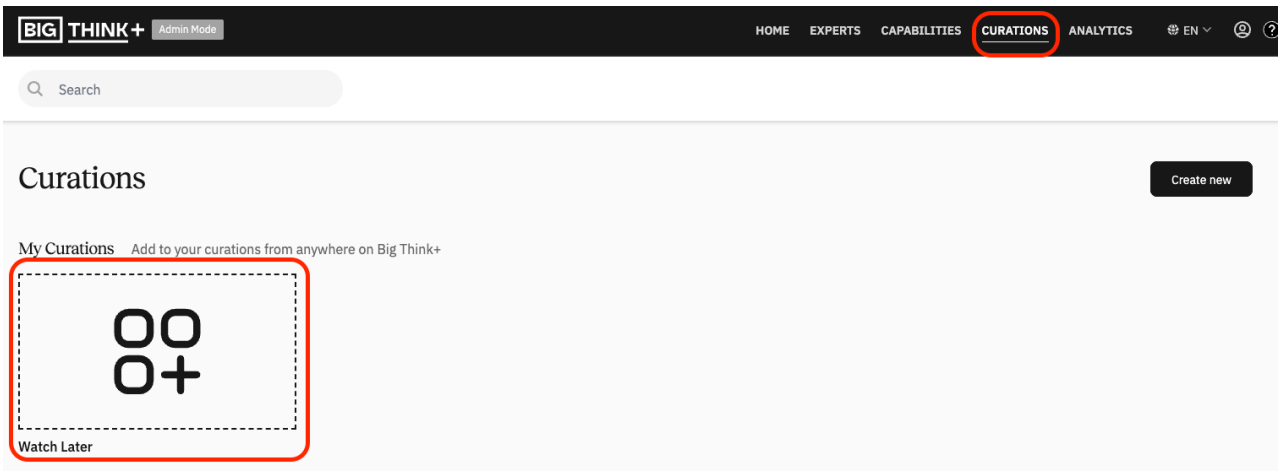
2. **From within a Lesson, Course, or Class Page**
   Use the **Add to Curation** button.



With either method, that content will now be stored in your **Watch Later** Curation.

Where do I find my Watch Later list?

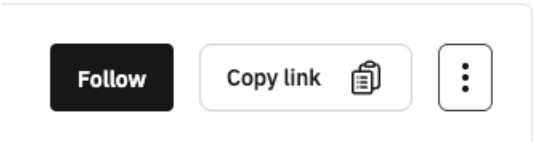
1. Navigate to the **Curations** page from the top menu.
2. Look under **My Curations**.
3. Click on **Watch Later** to view everything you've saved.



The Watch Later Curation is private and only visible to you.

How do I follow curations created by someone else?

If a Learning Manager shares a curated collection with you, you'll see a **Follow** button.



When you follow the curation, it will appear in your **Curations** tab so you can return to it anytime.
