BIG THINK +

How do I log in?

Last Modified on 07/30/2025 11:47 am EDT

This article walks you through how to log in to Big Think+ so you can start exploring and learning right away.

Logging in takes just a few clicks. Whether you're using a direct password or logging in through your company's internal tools, we'll help you get started.

If your organization uses a login link:

Most learners receive access to Big Think+ through their company. There are two ways your internal team may have invited you to join:

1. A login URL unique to your organization

To log in using a custom link:

A. Open the link provided by your organization

B. Enter your work email address

C. Follow the prompts to create a password or authenticate through your company's system

Some companies use **Single Sign-On (SSO)**. If this applies to your company, you'll log in with the same credentials you use for your email or other work tools.

2. A direct invitation email from Big Think+

To log in using the Big Think+ email:

A. Open the **"Welcome to Big Think+"** email

B. Click the **Accept invitation** link

C. Set your password and log in using your email and new password

Troubleshooting tips

- **Didn't receive an invitation?**

Check your spam folder for an email from *noreply@bigthink.com*, or ask your learning team to resend your invite.

- **Trouble logging in?**
  Use the **Forgot your password?** button on the login page, or contact us for support.
