Where can I find the lessons or other content I saved?

Last Modified on 10/01/2026 3:16 pm EDT

This article explains where to find the content you've saved on Big Think+.

Saving content allows you to build your own personalized learning library, whether you're bookmarking something to revisit or building a collection for a specific goal.

Where do saved lessons go?

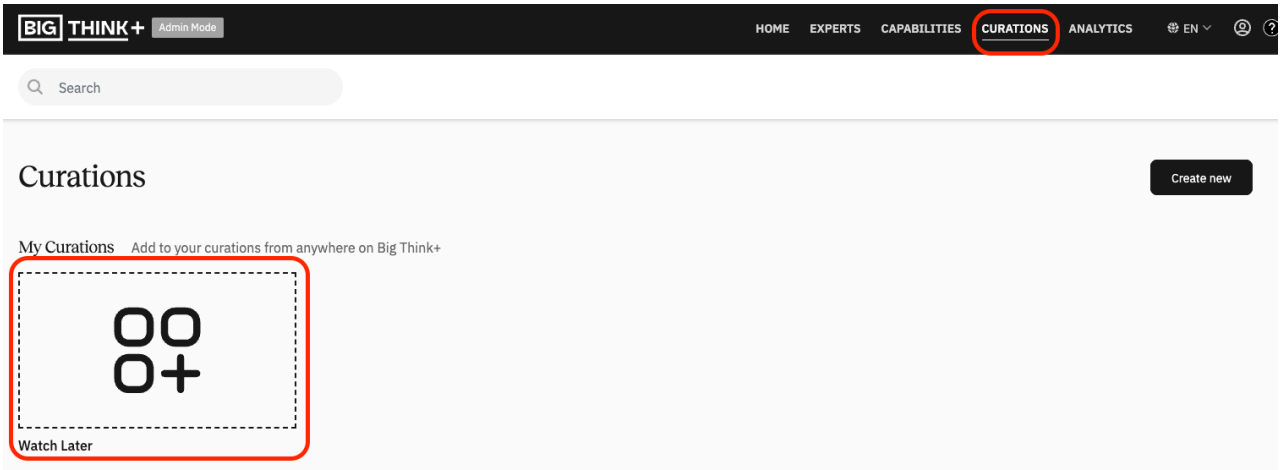

Whenever you click the **+ Add to Curation** button on a Lesson, Class, or Course, that content is added to one of your Curations.

By default, Big Think+ creates a **Watch Later** curation for you the first time you save content. Unless you choose a different Curation, saved content will go there.

How do I find my saved lessons?

1. Select **Curations** from the top navigation bar on any page

2. Open your **Watch Later** Curation (or any other one you've created)

You can also access Curations you've followed (such as ones shared by your Learning Manager) from this same location.
