

# EdCast Integration

Last Modified on 06/20/2025 12:15 pm EDT

*This article explains how to integrate EdCast and Big Think+.*

---

## Integration Overview

EdCast is an API integration that allows users to access Big Think+ from the EdCast platform.

## Supported Use Cases

Integrating EdCast and Big Think+ allows your learners to seamlessly discover and launch Big Think+ content from within your EdCast instance. Progress and completion data flow back to EdCast for measurement of learning programs.

## What data is sent to EdCast?

- Catalog data
- Video, user, and completion status tracking data

## Integration Checklist

1. Log in to EdCast and generate:
  - client\_id
  - client\_secret
  - client\_host
2. Securely send these credentials to your account management representative at Big Think+.
3. Big Think+ will authenticate your integration, and the catalog data will be sent to EdCast.

## Additional Resources

EdCast support can be found here: <https://cornerstoneondemand.my.site.com/s/>
